TECHNICAL SKILLS

- Programming Languages Java | C++ | Go
- Mobile app Development Flutter | State Management | APIs | Dart
- Web Development HTML | CSS | Tailwind CSS | React.js
- Backend Golang | Go routines and channels | API development | Gin Framework | GORM | Swagger
- Operating Systems Windows | Ubuntu Linux
- Core subjects Data structures | DBMS | OOP | Computer networks | Operating System
- Database MySql | PostgreSQL | Firebase
- Tools & IDEs Git | Postman | Figma | Vs Code | AI Tools | Canva

WORK EXPERIENCE

Software Engineer Intern | Company: Coditas Solutions LLP.

Jan 2026 - Present

- Collaborated with senior developers to build backend features using Go (Golang).
- Developed clean, efficient, and maintainable code following Go best practices.
- Implemented REST APIs and handled database operations.

Flutter Developer Internship | Company: Havric

Dec 2024 - Jan 2025

PROJECTS

Stock Trading Platform (Backend) | Golang, PostgreSQL, GORM, Postman, JWT AUTH, Middleware, APIs

- Developed stock broker backend with Signup API, Signin API, OTP API, and Change Password API.
- Implemented JWT-based authentication with middlewares for validation and authorization.
- Built watchlist APIs (Add API, Get API, Delete API) for user-specific stock management.
- Used PostgreSQL with logging for reliable data handling and monitoring.

WorkConnect App | Flutter, Dart, Firebase, Provider State management, REST API's

[GitHub Repo](#)

- Developed a secure and dynamic employee management system for seamless collaboration.
- Created an intuitive and streamlined dashboard for effortless navigation and workflow.
- Role-based access control using Firebase Authentication for secure employee login and data access.
- Project and task management module for assigning, tracking, and updating project status in real-time.

HealthGuardian App | Flutter, Dart, Firebase, Dialogflow, Encryption Algorithms

[GitHub Repo](#)

- Developed a cloud-based, secure patient data management platform ensuring real-time access and data integrity.
- Integrated an AI-powered chatbot using Dialogflow for intelligent health assistance and automated patient interaction.
- Enhanced performance and efficiency with optimized Dart code and smooth UI/UX flows.
- Leveraged Firebase Authentication and Realtime Database for secure login and encrypted patient data storage.

EDUCATION

2022- present	BE(Computer) at Savitribai Phule Pune University	(CGPA : 9.5)
2022	Common Entrance test	(Percentile: 96.41)
2022	Class 12th	(Percentage: 85)
2020	Class 10th	(Percentage: 96)

ACHIEVEMENTS AND CERTIFICATIONS

- Solved 600+ Problems on Leetcode and GFG
- Top 3 - Inter-college Bug Battle Competition
- Winner of GFG 160 days of code challenge
- Udemy - Mastering Data Structures and Algorithms using C++.
- Oracle certification in Database Programming with SQL.
- NPTEL certification in Body Language : key to professional Success.
